differentiate their curriculum.

Teaching With a Mountain View: Math Projects & Activities

Sixth-grade math students master basic operations, such as multiplying and dividing rational numbers, fractions and decimals. They should understand pre-algebra concepts, such as solving for single variables, and know how to use ratios and rates to compare data.

Goals & Objectives for Sixth-Grade Math | Sciencing

I teach 3rd grade acceleration (3rd & 4th grade math together) and I do a zoo map for area and perimeter. They have to create buildings for different animals using rectangles (but they can add multiple rectangles together to make odd shaped buildings and then have to determine perimeter (pretty easy) and area by finding the area of each rectangle and then adding them together.
