A well-balanced vegetarian diet can provide for the needs of children and adolescents. However, appropriate caloric intake should be ensured and growth monitored. Particular attention should be paid to adequate protein intake and sources of essential fatty acids, iron, zinc, calcium, and vitamins B12 and D. Supplementation may be required in cases of strict vegetarian diets with no intake of ...

American Beverage Association Launches Offensive on Caffeine. Ray Latif, February 11, 2014. Hounded by consumer safety groups and lawmakers, energy drink companies have faced a firestorm of criticism and negative press over the last two years, with much of the vitriol incited by claims that product marketing is inappropriately targeted to reach children and adolescents.
