Vital Signs of the Planet: Global Climate Change and Global Warming. Current news and data streams about global warming and climate change from NASA.

### **NASA: Climate Change and Global Warming**

What Actions Should We Not Take to Respond to Climate Change? We must respond prudently to the threats from climate change. We live in a global economy, much of it with lower production costs than our own in the developed world.

### **Climate Change Facts**

You can jump to any part that interests you from the table below. But if you don't know much about climate change, I suggest you start at the beginning.

### **Climate change for kids - Tiki the Penguin**

Climate change denial, or global warming denial, is part of the global warming controversy. It involves denial, dismissal, or unwarranted doubt that contradicts the scientific opinion on climate change, including the extent to which it is caused by humans, its impacts on nature and human society, or the potential of adaptation to global warming by human actions.

### **Climate change denial - Wikipedia**

In Africa, IPCC (2007:13) projected that climate variability and change would severely compromise agricultural production and access to food. This projection was assigned "high confidence." Africa's geography makes it particularly vulnerable to climate change, and seventy per cent of the population rely on rain-fed agriculture for their livelihoods.

To better understand the risks of climate change to development, the World Bank Group commissioned the Potsdam Institute for Climate Impact Research and Climate Analytics to look at the likely impacts of temperature increases from 2°C to 4°C in three regions.

### **India: Climate Change Impacts - World Bank**

Is climate change a cult? The simplest answer is "Yes". Even the use of children to promote it, which is a throwback to the Children's Crusades in the Middle Ages, indicates that it is a cult, in addition to the excoriation and shunning of anyone who dares to question the pronouncements or disagrees with the "leaders".

### **Is the climate change movement a 'cult'? | Watts Up With That?**

What do we mean by global climate change? The term "global climate change" usually refers to changes to the earth's climate brought about by a wide array of human activities.
