Boston web design and development firm, Skyworld, is the premier design, development and business consulting company serving Boston and the surrounding areas

Boston's Leading Web Site Design and Development Agency ...

Industrial design is a process of design applied to products that are to be manufactured through techniques of mass production. Its key characteristic is that design is separated from manufacture: the creative act of determining and defining a product's form and features takes place in advance of the physical act of making a product, which consists purely of repeated, often automated, replication.
