- My name is Turi McKinley. For the past decade, I've been at frog, a global design and strategy firm, where we transform businesses by creating systems of brand, product, and service that advance the human experience. This course will share with you tools and approaches that we've used throughout our 45-year-history, to launch experiences that make meaningful connections with people.

Designer Emily Pilloton moved to rural Bertie County, in North Carolina, to engage in a bold experiment of design-led community transformation. She's teaching a design-build class called Studio H that engages high schoolers' minds and bodies while bringing smart design and new opportunities to the poorest county in the state.

Technology optimisation and removal of choice have long been the basis for technical approaches to changing user behaviour e.g. a heating system that turns off automatically (Greening et al., 2000, Herring and Roy, 2007, Horvath, 2004). However, technical approaches alone are insufficient for sustaining behaviour change, as highlighted by e.g. Lilley (2009).

TED Talk Subtitles and Transcript: Wael Ghonim helped touch off the Arab Spring in his home of Egypt ... by setting up a simple Facebook page. As he reveals, once the revolution spilled onto the streets, it turned from hopeful to messy, then ugly and heartbreaking. And social media followed suit. What was once a place for crowdsourcing, engaging and sharing became a polarized battleground.

Intelligent design (ID) is a pseudoscientific argument for the existence of God, presented by its proponents as "an evidence-based scientific theory about life's origins". Proponents claim that "certain features of the universe and of living things are best explained by an intelligent cause, not an undirected process such as natural selection." ID is a form of creationism that lacks empirical ...
