Attic Stock. The term, Attic Stock, is used to describe excess/surplus construction material that are either left over from a job and taking up storage space. The term is also used to refer to materials that have been ordered intentionally, typically as part of a contractual obligation, to ensure that identical materials are available for future replacement and/or repairs on a project.

Needed to put you one little bit of remrak to say thank you yet again for all the precious opinions you have contributed in this article. This is certainly surprisingly generous of you to supply unhampered all most people might have sold for an electronic book to help make some dough on their own, particularly given that you might well have done it in case you desired.
