In sociology, deviance describes an action or behavior that violates social norms, including a formally enacted rule (e.g., crime), as well as informal violations of social norms (e.g., rejecting folkways and mores). Although deviance may have a negative connotation, the violation of social norms is not always a negative action; positive deviation exists in some situations.

Workplace deviance is also closely related to abusive supervision. Abusive supervision is defined as the "subordinates' perceptions of the extent to which their supervisors engage in the sustained display of hostile verbal and nonverbal behaviors". This could be when supervisors ridicule their employees, give them the silent treatment, remind them of past failures, fail to give proper credit ...

A crime is defined as any act that is contrary to legal code or laws. There are many different types of crimes, from crimes against persons to victimless crimes and violent crimes to white collar crimes. The study of crime and deviance is a large subfield within sociology, with much attention paid to who commits which types of crimes and why.

Some fundamental aspects of our social experience and identities, like race and gender, can be understood through the symbolic interactionist lens. Having no biological bases at all, both race and gender are social constructs that function based on what we believe to be true about people, given what they look like. We use socially constructed meanings of race and gender to help us decide who to ...
