The best dish soap to use in controlling aphids is pure Castile soap. Most brands of regular dish soap contain fragrance, hand softeners, degreasers or antibacterial agents, which can harm your ...

How to Use Household Dish Soap to Control Aphids | Home ...

From what I was told, as long as you see 'suds' when shaken, you have enough soap. I have never measured. Also, the 'soap spray' is a contact thing... the sudsy solution has to come in contact with said bugs to kill them. So it's not like it's a preventative measure. When I see the aphids, I run for the bottle and spray them.

Soapy Water To Defeat Aphids: Dishwashing soap for aphids ...

The soap washes off the aphid's protective waxy coating and causes dehydration. You can also mix three parts lukewarm water to one part vegetable or horticultural oil and a couple drops of dish soap. This mixture can be sprayed on to clog the respiratory spiracles of aphids. Spray once a week, taking turns between solutions.

How to Get Rid of Aphids - getridofthings.com

It's true. When sprayed on aphids, a solution consisting of liquid dish soap and water will kill aphids and many other soft-bodied insects such as caterpillars, thrips, mealybugs, spidermites, leafhopper, lace bugs, and whiteflies. Most of these soaps are made from the potassium salts of fatty acids.
