Solutions For Cat Allergies

A cat allergy is no laughing matter. Learn more from WebMD about the causes, symptoms, and treatments of allergies to cats.

Cat Allergies: Causes, Symptoms, Treatments and Reducing ...

Your cat needn't have recently switched to a new diet in order to be allergic to his food. In fact, the opposite is true. Because food allergies usually take time to develop, most cats have been eating the food they become allergic to for months or years before signs appear. Although the process is ...

Cat Can't Stop Itching? It May Be Food Allergies - Vetstreet

Cat allergies are generally divided into 3 main categories: flea allergy, environmental allergies (atopic dermatitis), and food allergy. Feline flea allergies and environmental allergies are the most common.

Anyone who has ever tried to sleep in a room with an itchy dog can tell you that canine allergies are miserable for both pets and people. People get runny noses, itchy eyes, sneezing or wheezing when allergies flair. In dogs, the problems are mostly skin-related: They scratch, chew their skin, rub against stationary objects or shake their heads in frustration from itchy ears.

Treating Allergies in Dogs - Vetstreet

What's Behind Our Pet's Chronic Allergy Epidemic? A conventional veterinarian had diagnosed my dogs and cats with allergies because they were constantly scratching, licking and biting their tails, paws and genital area which were swollen, oozing, bleeding and extremely sensitive to the slightest touch.

What's Behind Our Pet's Chronic Allergy Epidemic?

Allergy involves an exaggerated response of the immune system, often to common substances such as foods or pollen.; The immune system is a complex system that normally defends the body against foreign invaders, such as bacteria and viruses, while also surveying for abnormal changes in an individual's own cells, such as cancer.

Allergy (Allergies) - MedicineNet

How to Treat Allergies. Allergies range from being a nuisance to dangerous medical emergencies. They occur when your body produces antibodies to fight substances that aren't actually dangerous to you (like cat dander or dust mites). This...
