A gray box like this denotes my gripes, remarks, and suggestions, most often related to the user interface. You may skip these, if you wish, without losing any useful information.. First, some general remarks on the subject. A good thumb rule of user interface design is that the more often a given option or setting may be accessed, the easier that access should be. Therefore, an ideal design of ...

Good god, no rx six weeks between the last post and this one?!?! You should be ashamed of yourself! We've been much busy here in the office with a gazillion different items, prosthetic but we've finally coughed out the next episode of this show — a few weeks later, but better later than never. We went with the horror film theme again, basically because we wanted to.

B background. Surveys conducted from 1950 to 1970, when treatment prospects for cancer were bleak, revealed that most physicians considered it inhumane and damaging to the patient to disclose the bad news about the diagnosis [1, 2]. Ironically, while treatment advances have changed the course of cancer so that it is much easier now to offer patients hope at the time of diagnosis, they have also ...
