SHEEP. PROS: While there's some debate on the actual amounts of fat soluble vitamins in sheep's milk, they still produce the CREAMIEST milk out of these three. Sheep are famous for the deliciously succulent cheeses their milk makes. They are efficient producers, only needing 100% grass (no alfalfa or grain—just cheap grass!) to produce rich milk.

Milk is a nutrient-rich, white liquid food produced by the mammary glands of mammals. It is the primary source of nutrition for infant mammals (including humans who are breastfed) before they are able to digest other types of food. Early-lactation milk contains colostrum, which carries the mother's antibodies to its young and can reduce the risk of many diseases.
