New Confucianism (Chinese: 新儒家; pinyin: xīn rú jiā; literally: 'new Confucianism') is an intellectual movement of Confucianism that began in the early 20th century in Republican China, and further developed in post-Mao era contemporary China. It is deeply influenced by, but not identical with, the neo-Confucianism of the Song and Ming dynasties. It is a neo-conservative movement of ...

The glossary that follows assumes a definition of ecology--the study of interactions between organisms and their environment--much wider than what fits under the field's habitual statistical persona. Ecofeminism and ecopsychology are mentioned, for example, as are terms from organic gardening and permaculture.

Environmental Ethics. The field of environmental ethics concerns human beings' ethical relationship with the natural environment. While numerous philosophers have written on this topic throughout history, environmental ethics only developed into a specific philosophical discipline in the 1970s. This emergence was no doubt due to the increasing awareness in the 1960s of the effects that ...

Historiography - Branches of history: Histories have been written about architecture, sculpture, painting, music, dance, theatre, motion pictures, television, and literature. Despite essential differences, these forms of historiography have some common features. One is that they are almost invariably produced outside history departments and faculties.
